

Alert Type: Rapid Onset Crisis

Alert Title: Flood crisis in Sudan and South Sudan

Alerting Organisation(s): Danish Muslim Aid

Date Received: 14.10.25

Decision Date: 16.10.25

By: DERF Fund Management

Crisis country and location(s): Sudan and South Sudan

Decision: Not to activate the DERF to respond to Flood crisis in Sudan and South Sudan

Reason:

While the DERF acknowledges the severity of the humanitarian crisis and flooding in Sudan and South Sudan, the DERF must however decline any further Rapid Response crisis alerts at this time. The reason is that funds allocated for Rapid Response interventions for this year have now been fully committed. Consequently, the DERF Management Team is not in a position to receive or process any additional Rapid Response alerts for the rest of 2025.
